

ATTACHME
PHASE 2 PROJECT GOALS
Company Dashboard

- ❖ *Note, kindly ensure all your previous tasks are completed before proceeding with these ones.*
- ❖ *All the tasks to be completed by Saturday during our online meeting.*

Core Layout:

- **Header:**
 - Company logo and name
 - Navigation links (Dashboard, Post Opportunity, Applications, Messages, Analytics, Profile, Settings)
 - Notification bell with a dropdown for real-time updates
 - Profile dropdown with quick links (View Profile, Settings, Logout)
 - **Footer:**
 - Copyright info
 - Quick links (Help Center, Terms of Service, Contact Support)
 - Social media icons- if any
-

Sections/pages:

1. **Welcome Section:(Home)**

- Personalized greeting with company name and logo
- Display current date and time
- Quick stats (active opportunities, pending applications, accepted students)

2. Opportunities Management:(Opportunities)

- List of all posted attachments (title, deadline, number of applicants)
- "Create New Opportunity" button
- Inline editing for opportunity details
- Status toggles (active/inactive)

3. Application Tracking:

- Table view of all student applications
- Sort, filter, and search functionality
- Application details with student resume, cover letter or any other requirements, and status update buttons (accept, reject)

4. Messages & Notifications:

- Notifications panel for new applications, upcoming deadlines, and system updates
- Mark as read or clear notifications

5. Profile & Settings:

- View and edit company profile (logo, location, contact info and other details)
- Change password and update security settings

6. Analytics & Insights: - Latter

- Visual charts and graphs (e.g., number of applications per opportunity, student demographics)
- Time-to-hire metrics and application conversion rates
- Export data as CSV or PDF

Interactive Features: - try applying them

- **Hover Effects & Micro-Animations:** Cards and buttons with smooth transitions
 - **Drag-and-Drop for Opportunity Order:** Reorder listed opportunities easily
 - **Live Search & Filtering:** Instantly narrow down applications or attachments
 - **Countdown Timers for Deadlines:** Visualize how much time is left for each opportunity
-

Responsiveness & Accessibility:

- **Mobile-Friendly Layout:** Collapsible side menu for smaller screens
 - **Adaptive Grids:** Use CSS Grid and Flexbox for dynamic resizing
 - **Keyboard Navigation & ARIA Roles:** Ensure accessibility compliance
-

Styling & Design Choices:

- **Color Palette:** Modern blend of neutral tones with bold accent colors (e.g., blue, purple, or teal)
- **Typography:** Clean, legible fonts like Inter or Roboto
- **Icons & Illustrations:** Use libraries like Font Awesome or Heroicons for intuitive navigation

Members tasks

- ☐ Vera - Task number 2 and 4
- ☐ Vincent -Task number 3 and 5
- ☐ Richard - ***
